COMMERCIAL PROSPERITY. - Since the re-estab lishment of business in the City, the trade has steadily advanced, and in some instances has ever exceeded the past. As a commercial port fer cities can compete with Charleston, as her facili-ties for both the shipping and inland transporta-tion are amply sufficient for the trade. The different lines of coast steamers are now crowded to ost capacity, with freights from Balti more, New York and Boston. The trade with the former city has been greatly improved, and the vessels are now, during the busy season, frequently compelled to refuse freights, their complements being full. Latterly these vessels have been crowded with Western freights, and have brought goods to this city destined for Augusta, Athens, Atlants and different places in Western and South-western Georgia, and Alabama. This influx of goods has infused some life in certain circles and the music of the loaded drays has been heard at all hours. The merchandise is sent to the different depots, as soon as discharged from the vesser and the wharves at this time are a scene of bustle, life and activity. At a recent arrival of the Fatcon. from Baltimore, and the Champion, from New York, over four hundred dray loads of goods were taken to the different depots. This is one of the signs of the times, and we gladly record it as an

IMPURTANT TO THE NON-PAROLED. The follow ing order which has been issued from Headquar-ters will be of interest to those who have neglect-ed to procure their paroles, and a careful perusal of the same is recommended. There are but few of the class specified below in this city, and it will be an easy matter for them to fulfill the require De an easy mand.

ments of the order:

HEADQUARTERS SECOND MILITARY DISTRICT.

CHARLESTON, S. C., September 7, 1867.

GENERAL ORDERS,

It being known that many persons subject to parole, under the terms of the surrender of the in-surgent armies, have, since the 9th day of April, 1865, voluntarily exited themselves from the States lately in rebellion, thereby evading obligations manfully assumed and faithfully observed by all others subject thereto and have since returned to the United States : It is ordered - that all such per sons now resident or domiciled in, or who may be eafter become resident or domiciled within the limits of the Second Military District, (the States of North Carolina and South Carolina,) be required of North Carolina and South Carolina.) be required to give, within thirty days after the receipt of this order at the Headquarters of the Post, or District, in which they may be so resident or domicited, the parole prescribed on the 9th day of April, 1865.

The parole will be given in duplicate—one to be retained by the person who gives it, and the other to be forwarded to District Headquarters, for record and transmittal. The Provest Marshal General of the District is

charged with the execution of this order. By Command of Byt. Major-General Ed. R. S.

CITY FINANCES. During the recent session of Council, his Honor the Mayor stated that the amount of city currency in circulation to the 9th estant was \$19.786.85, and of certificates of in debtedness \$5,728.31, making a total of \$25,515.16. The Mayor also stated that there was at this time over \$150,000 due for unpaid taxes. Since the re-organization of the municipal government the tax-payers have been sadly lax in their payments, and the treasury has suffered considerable ember rassucet in consequence. There is no doubt that a large portion of the \$150,600 has been due for a long time, and the city should at once take steps to reduce this amount by proceeding against the delinquents. Improvements are needed in every section, but they will never be completed, or eve commenced, while the money is withheld. If tax-payers would like to have their property increase in value, they must come forward and pay their taxes. No government can move without greas-ing the wheels of state, and the groundack salve s the only appliance new in vogue

THE AUCITON AND COMMISSION BUSINESS .-- A reforence to the advertising columns of our paper will at once convince the reader of the magnitude of this business. Contain localities are devoted exclusively to this traffic, and during the busy season the autiring voice of the auctioneer may be heard crying his goods and knocking them down to the highest bidder. Vondine stange was at one time the chosen resort of these merchants, but the war and the fires have destroyed many of the old landmarks, and the former occupants of this Range are now scattered along East Bay, Broad and Meeting streets. The advantages presented by this business to both the soller and purchases are numerous, as the goods are offered to the nighest bidder, and are sold at their intrinsic mar-

A majority of the merchants on East Bay, hav undertaken the Auction and Commission business, in addition to their usual employments, and large sales of groceries, dry goods, roal estate, &c., are not unusual on this and other thoroughfares. The old Post office has long been the favorite stand for the auctioneer, and though this business has in common with other branches suffered during the Summer. The Fall trade will soon create some activity among the gentlemen of the ham-mer and the exchange again resound with the

sound of going, going, gone.

The old postoffice, though so popular among the fraternity, is now used almost exclusively by the real estate brokers, the large wholesale auction louses making their sales either in front of their are stored. Vendue Range and East Day were long the favorite haunts for this trade, but the narch of progress has been upward and onward and the large stores on Meeting, Hayne and Hasel streets are now occupied by many of the auction and commission merchants, who are thus enabled to offer the goods to both country and city pur-chasors. The arrival of a few merchants has stimu lated every branch of trade, and the auction houses are among the first to offer attractions to their customers. Large consignments of goods of different descriptions have been received, and scarcely day passes without a notice of some promin

As these stores are well supplied with over article needed in this market they offer rare in-ducements to purchasers, and the country merchants should embrace this opportunity to add to their stocks. The prominent sales are often adver-tised a few days in advance, and no difficulty exists to prevent an attendance. REGULAR MEETING OF CITY COUNCIL,-Council
